

# Contents

## “ Current Status and Future Prospects of Severe Accident Research and Accident Management”

Present Day EOPs and SAMG - Where do we go from here? <i>George Vayssier</i> .....	225
Corium Behavior in the Lower Plenum of the Reactor Vessel Under IVR-ERVC Condition: Technical Issues <i>RaeJoon Park, KyoungHo Kang, SeongWan Hong, SangBaik Kim, and JinHo Song</i> .....	237
Combined Analytical and Experimental Investigations for LWR Containment Phenomena <i>Hans-Josef Allelein, Ernst-Arndt Reinecke, Alexander Belt, Philipp Broxtermann, and Stephan Kelm</i> .....	249
Contributions of the VULCANO Experimental Programme to the Understanding of MCCI Phenomena <i>Christophe Journeau, Pascal Piluso, Patricia Correggio, Lionel Ferry, Gérald Fritz, Jean François Haquet, José Monerri, Jean-Michel Ruggieri, Mathieu Sanchez-Brusset, and Clemente Parga</i> .....	261

## Papers

### Reactor Physics

Application of a Genetic Algorithm for the Optimization of Enrichment Zoning and Gadolinia Fuel ( $UO_2/Gd_2O_3$ ) Rod Designs in OPR1000s <i>Taw Je Kwon and Jong Kyung Kim</i> .....	273
---	-----

### Thermal Hydraulics

Numerical Analysis for Prandtl Number Dependency on Natural Convection in an Enclosure Having a Vertical Thermal Gradient with a Square Insulator Inside <i>Jae Ryong Lee and Il Seouk Park</i> .....	283
--	-----

### Nuclear Safety

Identification and Assessment of Aging-related Degradation Occurrences in Nuclear Power Plants <i>In-Kil Choi, Young-Sun Choun, Min Kyu Kim, Jinsuo Nie, Joseph I. Braverman, and Charles H. Hofmayer</i> .....	297
Comparative Analysis of Station Blackout Accident Progression in Typical PWR, BWR, and PHWR <i>Soo-Yong Park and Kwang-Il Ahn</i> .....	311

### Nuclear Structural Analysis and Plant Management & Maintenance

Uncertainty Analysis of Data-based Models for Estimating Collapse Moments of Wall-Thinned Pipe Bends and Elbows <i>Dong Su Kim, Ju Hyun Kim, Man Gyun Na, and Jin Weon Kim</i> .....	323
---	-----

## Papers

### **Nuclear Structural Analysis and Plant Management & Maintenance**

Assessment of Properties and Durability of Fly Ash Concrete Used in Korean Nuclear Power Plants <i>Myung Sug Cho and Jae Myoung Noh</i> .....	331
Assessment of Possibility of Primary Water Stress Corrosion Cracking Occurrence Based on Residual Stress Analysis in Pressurizer Safety Nozzle of Nuclear Power Plant <i>Kyoung-Soo Lee, W. Kim, and Jeong-Geun Lee</i> .....	343
