Papers

Nuclear Safety

Radiation Dose to Human and Non-human Biota in the Republic of Korea Resulting from the Fukushima Nuclear Accident

Dong-Kwon Keum, In Jun, Kwang-Muk Lim, and Yong-Ho Choi 1

The Fukushima Disaster – Systemic Failures as the Lack of Resilience

Erik Hollnagel and Yushi Fujita 13

Numerical Investigation of the Spreading and Heat Transfer Characteristics of Ex-vessel Core Melt

In-Soo Ye, Jeongeun Alice Kim, Changkook Ryu, Kwang Soon Ha, Hwan Yeol Kim, and Jinho Song 21

Nuclear Fuel Cycle and Radioactive Waste Management

Development of Geological Disposal Systems for Spent Fuels and High-level Radioactive Wastes in Korea

Heui-Joo Choi, Jong Youl Lee, and Jongwon Choi 29

An Analysis of the Thermal and Mechanical Behavior of Engineered Barriers in a High-level Radioactive Waste Repository

S. Kwon, W.J. Cho, and J.O. Lee 41

A study of the Pressure Solution and Deformation of Quartz Crystals at High pH and Under High Stress

Jung-Hae Choi, Yong-Seok Seo, and Byung-Gon Chae 53

Determination of the ^{129}I in Primary Coolant of PWR

Ke Chon Choi, Yong Joon Park, and Kyuseok Song 61

Nuclear Fuel and Reactor Materials

Susceptibility of Alloy 690 to Stress Corrosion Cracking in Caustic Aqueous Solutions

Dong-Jin Kim, Hong Pyo Kim, and Seong Sik Hwang 67

Role of Grain Boundary Carbides in Cracking Behavior of Ni Base Alloys

Seong Sik Hwang, Yun Soo Lim, Sung Woo Kim, Dong Jin Kim, and Hong Pyo Kim 73

Radiation Applications and Shielding

Experimental Analyses of Spallation Neutrons Generated by 100 MeV Protons at the Kyoto University Critical Assembly

Cheol Ho Pyeon, Tetsushi Azuma, Yuki Takemoto, Takahiro Yagi, and Tsuyoshi Misawa 81

Contents

Nuclear Structural Analysis and Plant Management & Maintenance

Modeling of Nonlinear Cyclic Load Behavior of I-shaped Composite Steel-Concrete Shear Walls of Nuclear Power Plants

Ahmer Ali, Dookie Kim, and Sung Gook Cho 89

Assessment of Thermal Fatigue in Mixing Tee by FSI Analysis

Myung Jo Jung 99

Technical Note

Nuclear Safety

The Prediction of pH by Gibbs Free Energy Minimization in The Sump Solution Under LOCA Condition of PWR

Hyoungju Yoon 107

Nuclear Fuel Cycle and Radioactive Waste Management

Review of Spent Fuel Integrity Evaluation for Dry Storage

Donghak Kook, Jongwon Choi, Juseong Kim, and Yongsoo Kim 115
