Deadline for
manuscript submission

April 30, 2024

TOPICS

It is with great pleasure that I invite you to contribute to our upcoming special issue titled "Trends in Korean Nuclear R&D and Energy Policy" to be featured in the Korean Journal of Chemical Engineering. This issue will be handled by the guest editors: Professors Taekyung Yu and Gyunyoung Heo.

Our special issue covers the changes and progress in nuclear energy trend over the past decade, as well as the latest research in nuclear-related fields. Chemical engineering and nuclear engineering are closely intertwined research areas when it comes to dealing with energy, processes, and risk assessment. We are excited to offer a platform for sharing innovative research across various disciplines.

We are enthusiastic about your participation in this special issue, "Trends in Korean Nuclear R&D and Energy Policy". Accepted papers will be published online as part of the dedicated issue, with the online publication date serving as the official release. Please note, previously published works in other journals or media should not be submitted.

Manuscripts submitted will undergo the same stringent review process as regular submissions, ensuring the publication of top-quality research. For any concerns regarding the submission deadline or other queries, feel free to contact our editorial office at kjce@kiche.or.kr.

To submit your manuscript, please visit [Submission Link](#) and select "By Invitation Only: Trends in Korean Nuclear R&D and Energy Policy" as the submission category. We also welcome your suggestions for suitable referees, accessible under the "Invited Submissions" menu. If you need help with your password, please contact the editorial office.

We look forward to your response and are available for any further questions or clarifications you may need.

Warm regards,

Invited Review Papers

Small Modular Reactors for Land, Ocean, Space Applications
Climate Change & Nuclear Power
Spent Nuclear Fuel Management
Advanced Nuclear Enabling Technology (Artificial Intelligence, etc.)

Technical Papers with potential topics include but are not limited to :

Nuclear Front-end & Back-end Fuel Cycle
Construction/Operation/Decommission of Nuclear Facilities
Nuclear Material
Risk Management
Radioactive Waste Management & Disposal
Other topics covering nuclear and chemical engineering disciplines

Korean Journal of Chemical Engineering

Please select the appropriate special issue on 'Additional Information' step

Does this manuscript belong to a special issue?

Answer
Required:

- ☐ Please select a response
☒ Yes
☐ No

Please select the special issue your manuscript belongs to.

Answer
Required:

- ☐ Please select a response
☐ S.I. Bioelectronics in Chemical Engineering
☐ S.I. : Colloidal quantum dots
☒ S.I. : Trends in Korean Nuclear R&D and Energy Policy
