

# Contents

## Nuclear I&C

- Multivariate prediction of major safety variables with confidence estimation during severe accidents in nuclear power plants  
*Min Seon Kim and Man Gyun Na* .....103996
- A grey-DEMATEL based collaborative quality value network model for nuclear power equipment intelligent manufacturing  
*Yu Zhang, Mengling Wang, and Li Wang* .....104010
- FPGA-based simulator of HPGe gamma-ray spectra using RFID tokens as sources for educational and calibration applications  
*Ángel García-Durán, Antonio Baltazar-Raigosa, José Juan Ortega-Sígala, and Carina Oliva Torres-Cortes* .....104034
- Cherenkov reactor power meter: Development of an innovative and cost-effective technique for reactor power monitoring  
*Julijan Peric, Luka Snoj, and Vladimir Radulović* .....104042

## Nuclear Fuel Cycle and Radioactive Waste Management

- Application of high-pressure water jets and U-Net based deep learning for the efficient decontamination of radioactive tanks  
*Sia Hwang, Ki Joon Kang, and Hee Reyoung Kim* .....103997
- Comprehensive review of small modular reactor development focusing on challenges in the backend nuclear fuel cycle  
*Ji Su Kang, In Gyu Chang, and Jae Hak Cheong*.....104000
- Extending OpenMC validation to spent fuel canisters: A criticality benchmark against MCNP  
*J. Ruiz-Pineda, J. Romero-Barrientos, F. Molina, M. Zambra, and F. López-Usquiano* .....103999
- Evaluation of the stability of the full AmSel stripping system to recover americium from PUREX raffinate  
*Pablo Vacas-Arquero, Iván Sánchez-García, and Hitos Galán* .....104013
- The Newcomer's dilemma: Navigating strategic risks in nuclear fuel cycle development a simulation-based framework for Indonesia  
*Suparman Suparman, Djarot Sulistio Wisnubroto, Gagad Rahmadi, and Ganisa Kurniati Suryaman*.....104021
- Evaluating reducibility of strontium and barium-containing oxides by lithium metal in molten LiCl during oxide reduction of pyroprocessing  
*Eun-Young Choi, Namchoel Kim, Seol Kim, Dokyu Kang, and Jaesu Rru*.....104033

## Nuclear Fuel and Reactor Materials

- Multiscale multiphysics coupling analysis of  $UO_2-SiC_w$  accident-tolerant fuel with optimized whisker orientation  
*Linyuan Lu, Guoqiang Wang, Yunhao Wang, Tianxing Lan, Zhuangzhuang Ma, Jun Lin, Wanlin Li, Yajuan Zhong, Lihua Guo, and Haibin Zhang*.....103994
- A general-purpose machine-learning interatomic potential for FeCr steel: Atomistic insights into high-temperature mechanical behavior  
*ChengYi Hou, RuiXuan Zhao, HuiJun Zhang, ChuBin Wan, KeYuan Chen, PeiYi Pan, Zun Ma, XiaoYu Hu, Ping Qian, and Xin Ju*.....103993
- Characteristics of pore fractal and energy dissipation evolution in sandstone uranium reservoirs under liquid nitrogen cyclic cold impact  
*Xin Bai, Zhuoli Zhou, Shujian Li, Yan Wang, and Guicheng He* .....104014

# Contents

---

The effects of Cr and Nb on the microstructure, mechanical properties, and oxidation behavior of FeCrAl alloys  
*Chundong Wang, Ao Liu, Zeyuan Sun, Jie Pan, Jun Li, Cong Li, Meiyi Yao, and Xueshan Xiao* .....104015

Evaluation of embrittlement models for regulatory use: Comparing RG 1.99 Rev. 2 and an intercept-adjusted ASTM E900-15 approach  
*Gyeong-Geun Lee, Bong-Sang Lee, Min-Chul Kim, Junhyun Kwon, and Jong-Min Kim* .....104038

Method for panoramic image stitching of nuclear fuel assembly based on key point detection network  
*Jinyuan Zhang* .....104049

Sensitivity evaluation of boron hideout index in the various operation conditions of pressurized water-cooled reactor  
*Seungjin Seo, Nakkyu Chae, and Sungyeol Choi* .....104036

## Nuclear Policy, Economics, and Human Resource Development

Validation of a proposed MUF evaluation method based on the Monte Carlo technique  
*Hyun Cheol Lee and Haneol Lee* .....103990

The distinguished role of fossil fuel, alternative and nuclear energy on the environmental sustainability of Brazil: A STIRPAT analysis with ARDL approach  
*Md. Atik Hasan, Mohammad Ridwan, Salma Akter, Dulal Chandra Pattak, and Mithun Kumar Biswas* .....104005

Do community benefit programs Really work? An importance-performance analysis of local assistance programs near NPPs in South Korea  
*Byeong-Je Kim, Jisong Jeong, and Young Bae* .....104009

Investigation of a data-driven hybrid machine learning model for nuclear proliferation risk prediction for early warning  
*Chansuh Lee, Man-Sung Yim, and Jonghyun Kim* .....104024

## Nuclear Physics, Fusion, Laser, and Accelerator Technology

Transverse phase space characterization and reconstruction in a beam test stand at KOMAC  
*Seunghyun Lee, Seok Ho Moon, Dong-Hwan Kim, Han-Sung Kim, and Hyeok-Jung Kwon* .....104002

Boron nitride coatings for the enhanced detection of neutrons in CR-39  
*Noah D'Amico, Sandeep Puri, Ian Jones, Andrew Gillespie, Cuikun Lin, Bo Zhao, and R.V. Duncan* .....104027

Enhanced tritium production in irradiated TiD<sub>2</sub> from collisional fusion in the solid-state  
*Andrew K. Gillespie, Cuikun Lin, Ian Jones, Brad Jeffries, Joseph Caleb Philipps, Sandeep Puri, John Gahl, John Brockman, and R.V. Duncan* .....104031

Conceptual radiation shielding design of the integrated breeding test facility at KFE  
*Hyoseong Gwon, Dohyun Kim, Seonghee Hong, and Mu-Young Ahn* .....104026

Development of a PCB rotating coil system for small-aperture multipole magnets in Korea 4GSR project  
*Y.G. Choi, D.E. Kim, Y.G. Jung, W.W. Lee, B.J. Kim, M.J. Kim, and G. Hahn* .....104040

## Structural Integrity Analysis and Plant Management & Maintenance

Development of a 2D axisymmetric FDM structural analysis model for coated cladding  
*Hyuntaek Rho, Jinsu Kim, and Youho Lee* .....104041

# Contents

Weldability of additive manufactured pipe features for fusion component replacement Yao Ren, Robert Skilton, Ian Merrigan, and Neil Mayfield .....	104048
---	--------

## Nuclear Safety

CFAST simulations and application of a machine learning algorithm for the fire safety of a switchgear room Yu Zhang, Saerin Lim, Jongkook Heo, Jinsoo Bae, Seoung Bum Kim, and Weon Gyu Shin.....	104006
CRGTNet: Wear identification in in-service control rod guide tubes via convolutional neural networks Xueting Sun, Zhi Xu, Huajie Liu, Wenzhen Xia, Ke Xu, and Sanao Huang .....	104007
Numerical study on material behavior and core temperature field evolution under CDAs in LFR Yue Lin, Dalin Zhang, Yuzhuo Cai, Yapeng Liu, Peng Du, Pengrui Qiao, Wenxi Tian, Suizheng Qiu, and Guanghui Su .....	104020
Peridynamic modeling of liquid metal dissolution corrosion in 316L stainless steel/Lead-Bismuth Eutectic systems Zhaoyang Song, Chenwen Tian, Zhikun Zhou, Juan Du, and Ziguang Chen .....	104028
Uncertainty analysis of radionuclide release into containment during severe accidents: Application of MELCOR 2.2 to the PHEBUS FPT-1 test Han Sol Park, Hanbang Yoo, Donggun Son, and Yeon-Gun Lee.....	104045
Cavitation identification based on feature extraction Siyuan Hu, Liang Dong, Honggang Li, Weihua Shi, Runan Hua, Houlin Liu, and Cui Dai .....	103745

## Radiation Application

Economic hydrogen production by water splitting with different catalysts and temperatures under thermal and gamma radiation-thermal processes Imran Ali, Gunel Imanova, Teymur Agayev, Anar Aliyev, Tonni Agustiono Kurniawan, and Abdulrahman Bin Jumah .....	103982
Research status of inorganic scintillators based on lithium for neutron detection Ting Feng, Weirui Ju, Xinhui Jia, Xi Chong, Hao Wei, Zhiwei Zhao, Jing Li, and Jiyang Wang .....	103971
Study on the reduction of metal artifacts using the SEMAR technique Hyon-Chol Jang and Jae-Hwan Cho .....	103988
Feasibility study of MLEM-based iterative reconstruction for three-dimensional coded aperture imaging Zebin Lin, Zechao Kang, Ziwen Pan, Jiangfeng Wan, Xiongjie Zhang, Jijun Zou, Li Deng, Pei Yu, Liangwen Chen, and Bangjiao Ye .....	104012
Eco-friendly synthesis of Bi-Cu-W nanocomposites for radiation barriers and photonic devices B.M. Chandrika, H.C. Manjunatha, Vishwalinga Prasad B., R. Munirathnam, L. Seenappa, K.N. Sridhar, and A.J. Clement Lourduraj.....	103995
A hybrid Exponential-Gaussian approach for pulse shape modeling in liquid scintillators Harleen Singh and Rohit Mehra .....	104016
Performance improvement of gamma-imaging system by selective fusion of deep-learning-based collimator-less and Compton images with FlowNet model: A Monte-Carlo simulation Ajin Jo and Wonho Lee .....	104030

## Radiation protection

Radiological protection of non-human biota: International safety standards, national implementation, and policy implications <i>In Gyu Chang, Ji Su Kang, and Jae Hak Cheong</i> .....	103961
Quantitative evaluation of material-dependent elemental composition in ordinary concrete for radiation shielding applications <i>Osamu Kontani, Osamu Sato, Shohei Sawada, Takafumi Igari, Keigo Fujikawa, Hisanobu Akatsuka, and Ippei Maruyama</i> .....	104004
Gamma radiation dose rate in controlling fungi treatments to preserve organic artifacts <i>Gyeong-Seo Jo, Yeong-Hyeok Kwak, Min-Goo Park, and Hae-Jun Park</i> .....	104022
Natural radioactivity in soil samples collected from selected locations in east Jerusalem, West bank - Palestine <i>Khalil M. Thabayneh, Baraa Y. Al-Daraweesh, and Husain R. Alsamamra</i> .....	104023
Nd <sub>2</sub> O <sub>3</sub> -induced modifications in PVA-Ce <sub>2</sub> O <sub>3</sub> Composites: Correlating structure, optical properties, and radiation shielding efficiency <i>Ahmed M. El-Khayatt, Hosam M. Gomaa, Alaa M. Rashad, and H.A. Saudi</i> .....	104018
Experimental and machine learning method for evaluation of radiation risk from a research nuclear reactor <i>Mumtaz Khan, Nadeem Shaukat, Ammara Naseem, Penghua Hu, Jie Niu, and Thaqal M. Alhuzaymi</i> .....	104017
Assessment of tritium distribution and public exposure around Hanbit Nuclear Power Plant <i>Heegang Kim and Jiyeon Mun</i> .....	104032

## Reactor Physics

Neutron efficiency and multiplication factor in spallation neutron-driven subcritical systems: The case of a fast neutron system <i>S.R. Hashemi-Nezhad</i> .....	104003
Transient analysis of the SPERT III E-core experiment with nTRACER/SPHINCS code system <i>Dawid Paweł Szymczyzna and Jooil Yoon</i> .....	104011
Application and analysis of Cr-coated GdN-CBA to i-SMR core with two control rod patterns for load-following operations <i>Woo Jin Lee, Sung Hyun Cho, Seung Hyeon Choi, and Ser Gi Hong</i> .....	104029
Neutronics/thermal-hydraulics coupling calculations and new coupling cases studies for the PWR MOX/ UO <sub>2</sub> benchmark <i>Zhigang Li, Bangyang Xia, Wenbo Zhao, Wei Zeng, Junjie Pan, Xiafeng Zhou, Shenglong Qiang, and Wei Lu</i> .....	104039
Accelerated solution methods for self-adjoint angular flux neutron transport equations based on scattering matrix decoupling <i>Duoyu Jiang, Peng Xu, Xinbiao Jiang, Tianliang Hu, Lipeng Wang, Lu Cao, Huaqi Li, Da Li, and Lixin Chen</i> .....	104046

# Contents

---

Ensuring subcriticality of space lithium-cooled reactors during submerged accidents: A study on ex-core reactivity control  
*Bin Wei, Yue Wang, Jincheng Wang, Chao Liu, Wenchao Zhang, Jianchuang Sun, and Weihua Cai* .....104043

## Thermal Hydraulics

Validation of RELAP5/MOD3.3 for passive auxiliary feedwater system (PAFS) performance using ATLAS test C2.3 data: a detailed analysis of double-ended guillotine break scenarios  
*Satya Prakash Saraswat, Mubashir Hassan, Nourah Alyammahi, and Yacine Addad* .....103991

Development and validation of thermal network-based transient heat pipe analysis code incorporating melting/solidification effects  
*Ye Sung Kim, Myung Jin Jeong, San Lee, Yeong Hun Lee, Gi Won Bae, and Hyoung Kyu Cho* .....104001

CFD analysis of the Lower Plenum mixing test of the high temperature test facility benchmark by NRG PALLAS and OSU  
*M.M.M.D. Hussain, B. Nakhnikian-Weintraub, I. Gutowska, and F. Roelofs* .....104008

Supercritical steam Rankine cycle design optimization for molten salt reactor application  
*Doh Hyeon Kim, Seunghwan Oh, Yong Jae Chae, and Jeong Ik Lee* .....104019

Effects of orthogonal guide vane configuration on the performance and pattern boundary of swirling flows in gas-liquid separators  
*Luyun Mao, Nan Gui, Yanfei Sun, Xingtuan Yang, and Shengyao Jiang* .....104025

CFD modelling of discharging process in a two-tank molten salt thermal storage system  
*Chenguang Li, Krishna Podila, Chukwudi Azih, and Lan Sun* .....104037

## Corrigendum

Corrigendum to "Determine the hazards of radioactive elements and radon gas manufacturing processes in an Egyptian fertilizer factory" [Nucl. Eng. 56, (5), (2024) Start 1781–1795, 10.1016/j.net.2023.12.034]  
*Soad Saad Fares* .....104099
