

Review Articles

Nuclear Safety

- Development of a Korean roadmap for technical issue resolution for fission product behavior during severe accidents
Han-Chul Kim, Kwang Soon Ha, Sung Joong Kim, Miro Seo, Sang-Ho Kang, Doo Yong Lee, Yong-Mann Song, Jongseong Lee, Hee-Jung Im, Chang-Sok Cho, Jei-Won Yeon, Sung Il Kim, Song-Won Cho, Jinho Song, and Yong-Ho Ryu1575

Nuclear I&C

- Understanding radiation effects in SRAM-based field programmable gate arrays for implementing instrumentation and control systems of nuclear power plants
T.S. Nidhin, Anindya Bhattacharyya, R.P. Behera, T. Jayanthi, and K. Velusamy1589

Original Articles

Reactor Physics

- Effect of high-energy neutron source on predicting the proton beam current in the ADS design
Youqi Zheng, Xunzhao Li, and Hongchun Wu1600
- Processing and benchmarking of evaluated nuclear data file/b-viii.0β4 cross-section library by analysis of a series of critical experimental benchmark using the monte carlo code MCNP(X) and NJOY2016
Kabach Ouadie, Chetaine Abdelouahed, Jalil Abdelhamid, Darif Abdelaziz, and Saidi Abdelmajid1610

Thermal Hydraulics

- Heat transfer and flow characteristics of a cooling thimble in a molten salt reactor residual heat removal system
Zonghao Yang, Zhaoming Meng, Changqi Yan, and Kailun Chen.....1617
- Effect of central hole on fuel temperature distribution
Mehdi Yarmohammadi, Mohammad Rahgoshay, and Amir Saied Shirani.....1629
- Effect of a chemical reaction on magnetohydrodynamic (MHD) stagnation point flow of Walters-B nanofluid with newtonian heat and mass conditions
Sajid Qayyum, Tasawar Hayat, Sabir A. Shehzad, and Ahmed Alsaedi1636
- On the performance of heat absorption/generation and thermal stratification in mixed convective flow of an Oldroyd-B fluid
Tasawar Hayat, Muhammad Ijaz Khan, Muhammad Waqas, and Ahmed Alsaedi.....1645
- Boundary layer analysis of persistent moving horizontal needle in Blasius and Sakiadis magnetohydrodynamic radiative nanofluid flows
Penem Mohan Krishna, Ram Prakash Sharma, and Naramgari Sandeep1654
- Marangoni convection radiative flow of dusty nanoliquid with exponential space dependent heat source
Basavarajappa Mahanthesh, Bijjana Jayanna Gireesha, Ballajja Chandra PrasannaKumara, and Nagavangala Shankarappa Shashikumar1660
- Steam generator performance improvements for integral small modular reactors
Muhammad Ilyas and Fatih Aydogan.....1669
- Entropy analysis in a cilia transport of nanofluid under the influence of magnetic field
Muhammad N. Abrar, Rizwan Ul Haq, Muhammad Awais, and Irfan Rashid1680

Contents

Nuclear Safety

- Effects of temperature and solution composition on evaporation of iodine as a part of estimating volatility of iodine under gamma irradiation
Jei-Won Yeon and Sang-Hyuk Jung1689

Nuclear I&C

- Improved reactor regulating system logical architecture using genetic algorithm
Hyo-Sub Shim and Jae-Chun Jung1696

Nuclear Fuel Cycle and Radioactive Waste Management

- Production of uranium tetrafluoride from the effluent generated in the reconversion via ammonium uranyl carbonate
João Batista Silva Neto, Elita Fontenele Urano de Carvalho, Rafael Henrique Lazzari Garcia, Adonis Marcelo Saliba-Silva, Humberto Gracher Riella, and Michelangelo Durazzo1711
- Design considerations for teleoperation systems operating in gas-tight argon cells
Seungnam Yu, Jongkwang Lee, Byungsook Park, Ilje Cho, and Hyojik Lee1717
- Transfer characteristics of a lithium chloride-potassium chloride molten salt
Eve Mullen, Ross Harris, Dave Graham, Chris Rhodes, and Zara Hodgson.....1727

Nuclear Fuel and Reactor Materials

- Atomistic simulations of nanocrystalline $U_{0.5}Th_{0.5}O_2$ solid solution under uniaxial tension
Hongxing Xiao, Xiaomin Wang, Chongsheng Long, Xiaofeng Tian, and Hui Wang1733
- Allowable peak heat-up cladding temperature for spent fuel integrity during interim-dry storage
Ki-Nam Jang, Hyun-Jin Cha, and Kyu-Tae Kim.....1740
- Hydrogen's influence on reduced activation ferritic/martensitic steels' elastic properties: density functional theory combined with experiment
Sinan Zhu, Chi Zhang, Zhigang Yang, and Chenchong Wang1748

Radiation Application

- Analysis of radioactivity levels and hazard assessment of black sand samples from Rashid area, Egypt
Mohamed A.E. Abdel-Rahman and Sayed A. El-Mongy1752

Radiation protection

- Investigation on radiation shielding parameters of cerrobend alloys
Borhan Tellili, Youssef Elmahroug, and Chedly Souga.....1758

Technical Notes

Radiation Protection

- Radioactive effluents released from Korean nuclear power plants and the resulting radiation doses to members of the public
Tae Young Kong, Siyoung Kim, Youngju Lee, Jung Kwon Son, and Sung Jun Maeng1772

Contents

Nuclear Fuel Cycle and Radioactive Waste Management

Interaction of NpO_2^+ with Cl^- in Na–Ca–Cl-type solutions at ionic strength of 6M: Effect of presence of Ca ion on interaction

Shinya Nagasaki, Takumi Saito, Satoru Tsushima, Jared Goguen, and Tammy Yang1778

Corrigendum

Corrigendum to “Characteristics of Cement Solidification of Metal Hydroxide Waste” [Nucl. Eng. Technol. (2017) 165–171]

Dae-Seo Koo, Hyun-Hee Sung, Seung-Soo Kim, Gye-Nam Kim, and Jong-Won Choi1783
